

REGISTRATION IS GROWING STEADILY; DEPUTY IS NAMED

THOMAS WILL PUT YOU ON THE ROLL AS WELL AS CITY CLERK—MORE LATER

City registration was shoved across the 1200 mark last evening. But it is now even that by Saturday night there will be more than 1600 enrolled. Also better than even money is offered that the women will have increased their percentage in the total for during this week they have been coming stronger each day and are now evidently decidedly interested. It is conceded that interest is the only requirement to a registration of upward of 3500 in the city. The women can produce more than half of this if they really become enthusiastic, and it is in evidence that they are now in a very fair way to do just that thing.

At closing time at the City Hall last night, City Clerk Butler had enrolled 1205 names. Of this number 246 were those of women. On Monday there were more than the average number of women registered. Yesterday there was further increase above the former average. Men streamed in steadily yesterday to the City Hall and attended to placing their names where they will draw the privilege of voting at the primaries and in the city election. In all, 95 men were registered yesterday by the city clerk.

Beginning today there will be a second place of registration in the city. This is at the office of Judge Hall, where F. E. Thomas has been made a registration officer. All applicants there will be registered by Mr. Thomas promptly. The charge is the same as at the City Hall—nothing. The appointment of Mr. Thomas was made yesterday by Mayor Williams, who was authorized by the city council to make such additional appointments of deputy registration clerks as he might see fit. The object of further appointments is to afford every possible facility for a full registration in the city. Later along it is likely that other deputies will be appointed. Four are now working in Douglas, and a dozen could work to advantage in Bisbee. On the last end of the season of registration, which is now not far from a close, many hope that enough deputies will be placed at work to enable a house to house campaign to see that none have overlooked the matter of registration.

To Boost Picnic

A delegation of Douglas Ladies is expected here tomorrow in the interests of the picnic which they are going to give at Lewis Springs on May 19. It is the purpose of the Bisbee Aeris to get behind the picnic of the neighboring Aeris this year in real earnest and help them to have as big a time as possible. The Douglas Aeris were much in evidence last year in assisting the Bisbee Aeris with their picnic and it is the intention to repay the consideration with interest.

PREVENT HAIR LOSS BY USING HERPICIDE

Did you ever try to discover a reason for the dying of a valuable plant? You perhaps found that life was destroyed by some insect or parasite working about the roots and sapping away the elements which go to support plant life.

The dandruff germ exercises the same destructive influence upon the life of the hair. It forces its way down the follicle around the hair bulb and thus prevents the hair from getting proper nourishment. The hair dies and drops out.

Newbro's Herpicide prevents this by eradicating the dandruff. It also frees the scalp from the accumulations of dirt and sebum. With the removal of these obstacles to a

GOVERNORS WILL MEET 40 CITIZENS AT CLUB DINNER

ATTENDING FROM DOUGLAS WILL BE 35 GUESTS—DELEGATES TO THAT CITY TODAY

Reservations for the luncheon that will be tendered Governor McDonald and Hunt closed at noon yesterday when the committee learned that there would be 35 guests, including the guests of honor, and that 40 reservations had been made by residents of the district. The steward at the country club was then notified to make preparations for 75. Today a toastmaster will be selected by the committee and the other arrangements completed. The original estimate of the committee on the probable attendance has been exceeded by ten.

This evening a delegation will leave this city for Douglas to attend the reception that is to be held at the Gadsden Hotel at which the Governors will be the guests of honor. Several cars are expected to go and all of the car owners and those who will make the trip to Douglas are asked to be at the Copper Queen in readiness to leave at 7 o'clock sharp. The stay in Douglas is not expected to be a prolonged one and it is probable that the party will be back in town before midnight at the latest.

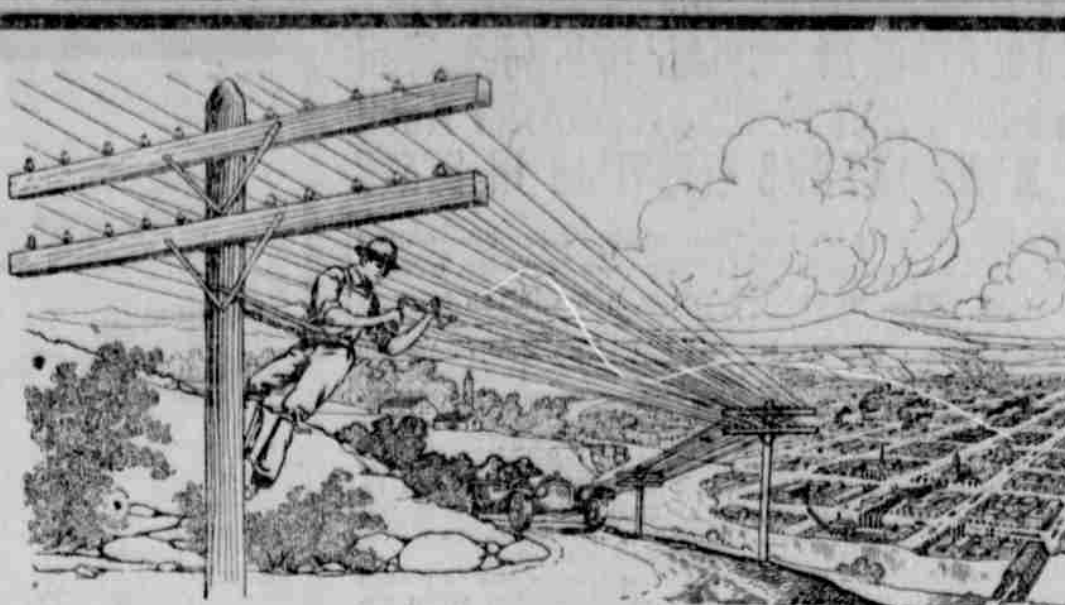

For the benefit of those who will not go to the Country club by automobile tomorrow, arrangements for special car service will be made and the announcement of the time of the departure of cars for the club will be announced by the committee tomorrow morning.

Secretary Dubois telephoned from Douglas that the plans for a delegation from Tucson had failed to materialize but that in addition to the Governors' parties there would be 15 from outside of Douglas and about an equal number from that city.

As has been stated, the plans of Governor McDonald, after visiting this city and the state highway work have not yet been learned, but will be definitely assured after his arrival in Douglas today. Other guests of honor besides the two chief executives will be State Engineer Cobb, and Division Engineer Ryan and, it is hoped, the State Engineer of New Mexico.

Public Debate at Y. M. C. A.

In the auditorium of the Y. M. C. A. tonight a 7:30 there will be given the first public debate of the Y. M. C. A. debating club. The club has been training for several months and a spirited debate is promised. The strongest debaters of the club have been chosen for the occasion. The question is "Resolved That the Panama Canal Tolls Should Be the Same for All Nations." Messrs. Crocker and Kuman are on the affirmative, while Messrs. Rosok and Wilson will appear for the negative side of the question. The admission is free to all, both men and women. It is hoped that there will be a good sized audience present to greet the maiden effort of the orators who have given much time and effort in preparing for the public much valuable information on this widely discussed subject.

The Tale of Two Cities

Yuma, Arizona, is a thriving, prosperous city

Over six thousand people live and work and play there

They have their friends, their homes, their families, their stores and their churches

That's their city

There's another city—just as big, just as important, and just as thriving

That's the Telephone City

Over six thousand men and women are working in the mountain region today to handle your telephone calls.

If all the employees of your telephone company could live in one place they would make a bigger city than Yuma.

They can't be spared, though, even to build a city

For they are busy every day of the year in 400 cities and towns in seven states making your telephone service

The Mountain States Telephone and Telegraph Co.

"The Corporation Different"

STOCK COMPANY IS PROMISING WELL

The stock Tabloid Musical Comedy Company, now being organized in the city, is drawing not only some of the old time favorites of the Bisbee public in musical comedy, but is also gathering some excellent new talent.

Five young ladies arrived in the city last evening from San Francisco and two others are expected today from Los Angeles to enter the chorus rehearsals which are to commence at once. Two other young ladies arrived the latter part of last week from the coast to enter the chorus, which is to be made a very strong one. Only the best theatrical agencies have been applied to and the class of material that has been secured is much above anything previously brought to the city.

Present expectations are that the stock company will be able to open at the Orpheum about the 20th. Costumes and stage effects, all entirely new, are yet to come for the productions which will be put on. The orders have been put in and deliveries are expected during the next several days.

GOOD VAUDEVILLE AT THE ORPHEUM

Dunn and Brandon, vaudeville team at the Orpheum, secured signal success with their performance of the district yesterday. They won it with presentation of clean, snappy, wholly good and entertaining delivery of song and dance specialties. Of their dancing it can be said that they have never been excelled in this line of work in the city. Their songs are good and their dialogue work clever.

Beside the vaudeville feature there is the usual strong line of moving pictures, in which the unusual is always present. Crowded houses were had last night and will be justified again at performances today and tonight, at which entire new acts and pictures will be presented. The enlarged program calls for no increase in the 10 cent admission price of the house.

NEW POSTOFFICE.

WASHINGTON, April 14.—A post-office has been ordered established at Old Glory, Santa Cruz county, with Charles S. O'Neill as postmaster.

There is Comfort in

knowing that you can obtain one tried and proved remedy thoroughly well adapted to your needs. Every woman who is troubled with headache, backache, languor, extreme nervousness and depression of spirits ought to try

REALISTIC FLOOD PICTURES SHOWN IN LUBIN FEATURE

WONDERFUL LOVE STORY WOVEN AROUND EXCITEMENT OF THE DAYTON FLOOD

Sometimes by a curious twist of fate the motion picture companies of the country are enabled to get scenes of life which are not obtainable in any other manner. One of those freaks of nature occurred when the Miami river flooded its banks a year or so ago and left devastation in its wake through Ohio. The Lubin company had men on the ground and took a great many scenes of the floods and the flooded districts. Out of these scenes a pretty picture has been woven as pretty a picture as has been shown in this district for some time.

"From Out of the Flood" is the name of the two reel feature, and is acted by the best talent the Lubin company has at its disposal. The story commences with a young

bandstrong son of a millionaire, who on a dare, and in a moment of drunkenness marries a chorus girl. Just then the flood breaks and sweeps the two apart. The young woman is finally taken to a hospital and dies. Before she passes, however, she confides in another girl and makes her promise to take her marriage certificate and her ring and go to the father of the young man. The young man, on account of the rigors and the exposure loses his identity, and is taken to a farmer's house where he is operated on and is finally brought back to life and memory. The girl in the meantime has gone to the home of the bereaved father and is taken in as a daughter. The son returns home and is astounded to find a wife there. The pair agree to deceive the father until his end. In the meantime they fall in love and finally are married. The scenes surrounding the flooded districts are wonderful and well worth seeing.
